Ariston Group Strengthens Position In North America at AHR Expo

PROVIDENCE, R.I./January 18, 2024 – Ariston Group, a global leader in thermic comfort and energy efficiency for domestic, commercial and industrial spaces, is strengthening its position in North America and will be introducing new products and critical updates from its industry-leading heating and water heating lines at the upcoming AHR Expo in Chicago.

Ariston Group is showcasing new products and improvements in water heating products from HTP and American Standard Water Heaters (ASWH), and heating equipment from NTI at Booth N1140 at the Expo, which runs from January 22-24 at McCormick Place. All of the brands leverage the expertise of Ariston Group's technology in providing sustainable comfort for everyone.

HTP is launching the EVERLAST Elevate Demand Response that provides the same amount of hot water as a 100-gallon electric water heater from a 55-gallon tank and includes a lifetime tank warranty and a six-year part warranty with online registration. The EVERLAST Light Duty commercial heater is a lightweight, versatile stainless steel electric water heater suitable for light-duty commercial use.

The ASWH Demand Response Top Connect features intelligent electronic controls and is ready for grid connectivity, resulting in lower electricity costs. They will also be launching the new Light Duty Commercial, a durable and versatile water heater suited for light-duty commercial projects.

From NTI, the Air to Water Heat Pump product line is the company's solution for electrification while its hybrid functionality allows for flexibility with gas boilers and heat pumps operating together. Also from NTI is the new Compass floor standing boiler, which has flexibility for left- and right-hand piping connections and new human-machine interface (HMI) controls for enhanced user interface and troubleshooting. NTI will introduce new HMI controls on many of its boilers, and include a set-up wizard and with clear fault codes for troubleshooting.

Other products at the booth will be the HTP Superstor Ultra Indirect Water Heater, the market leader in the indirect water heater category for 30 years; the HTP Phoenix, a commercial condensing gas water heater constructed with lightweight 316L stainless steel and a proprietary Cupronickel heat exchanger; ASWH HYBRID Heat Pump, which is born of fourth generation technology and delivers maximum efficiency, energy savings, intelligent electronic controls, and superior quality; ASWH's High Efficiency Ultra-Low NOx, a durable, efficient and versatile gas-fired water heater for commercial applications; NTI's TRX Condensing Boiler, a high-efficiency, wall-hung boiler equipped with an innovative XTRATECH® stainless steel heat exchanger with large diameter tubing; and the NTI GF150, a combination furnace/boiler/water heater to provide forced hot air heating, domestic hot water and hydronic heating capabilities.

The AHR Expo brings together manufacturers and suppliers of all sizes and specialties to share ideas and showcase the future of HVACR technology. Engineers, OEMs, contractors, facility operators, operators architects, and other professionals experience everything new in HVACR and build relationships to grow businesses and careers.

-30-

Ariston Group is a global leader in sustainable solutions for hot water and space heating, components, and burners. In 2022 the Group, with the pro-forma inclusion of Wolf-Brink, reported almost \$3.3 billion in revenues. As of today, Ariston Group has over 10,000 employees, representative offices in 43 countries, 28 production sites, and 30 research and development centers on 5 continents. Ariston Group has been listed on Euronext Milan since November 2021.

Ariston Group demonstrates its commitment to sustainability through the development of renewable and high-efficiency solutions, such as heat pumps, water heating heat pumps, hybrid solutions, and solar thermal systems.

The Group also stands out for its continuous investment in technological innovation, digitalization, and advanced connectivity systems.

The Group offers a full range of products, solutions, and services mainly under the global brands Ariston, ELCO, and Wolf, and also operates under iconic brands such as Calorex, NTI, HTP, Chaffoteaux, ATAG, Brink, Chromagen, Racold, as well as Thermowatt and Ecoflam in the components and burners business.
