

HOT-FORGING AND TRANSFER MACHINING

GAROM S.R.L. announced it will exhibit at booth #8374 at the 2018 AHR Expo, being held at Mc Cormick Place in Chicago, January 22-24, 2018.

GAROM S.R.L. manufactures hot-forgings made out of brass and other non-ferrous metals according to customer's specification.

Since the company's establishment in 1980 GAROM S.R.L. has always been following its philosophy of quality and flexibility for our customers, realized by means of innovations in the area of production and control, which made the company nowadays one of the biggest European suppliers of semi-finished forgings made of brass and other non-ferrous alloys. There is a wide range of fields that use our products: automotive industry, air, gas, hydraulic fittings, handles, meters, water and gas valves and others. At the AHR Expo attendees can get a demo of our products and find out more information of what we can do by visiting us at booth #8374.
