Industrial Steam, LES Boilers and Industrial Fuel Systems to feature VR Product Demos at ASHRAE

Explore Industrial Steam, LES Boilers and Industrial Fuel System's entire equipment line in a new perspective at the 2018 ASHRAE Winter Conference & AHR Expo January 22 - 24 in Chicago, IL. We will be presenting our products in virtual reality (VR) using Oculus Rift at booth 1543. Oculus Rift is the most immersive VR product on the market. Experience life size renderings of our entire equipment line in their operational settings.

Products include:

- Pressurized and atmospheric deaerators
- Packaged boilers
- Fuel oil transfer pump systems
- Filtration Systems

And more

About ASHRAE:

Founded in 1894, is a global society advancing human well-being through sustainable technology for the built environment. The Society and its members focus on building systems, energy efficiency, indoor air quality, refrigeration and sustainability within the industry.

About Industrial Steam:

Industrial Steam is the leading manufacturer of .005 cc/l pressurized and atmospheric deaerators. Along with the time-tested proven spray-type and tray-type designs, Industrial Steam manufactures a unique line of dual compartment systems that provide 100% guaranteed performance that is unmatched in the deaerating industry. It is these innovations in the design of deaerating systems, our understanding and implementation of the controls, and our never ending quest to satisfy our customers, that truly set Industrial Steam apart. Although a few designs are unique to Industrial Steam, the chart below can be applied to all manufacturers spray and tray type deaerators.

About LES Boilers:

L.E.S. designs, assembles, tests, and ships packaged boilers, custom built energy management packages and boiler feed systems.

About Industrial Fuel Systems:

Experts with fuel oil transfer pump systems including the application, design, and fabrication of the total system. Systems include pump sets, day tanks, flow control manifolds, filtration (polishing) systems and fuel oil handling accessories.
