

Experience SunEarth at the World's Largest HVACR Marketplace!

FONTANA, CA., October 26, 2018 – SunEarth, Inc. is proud to announce the company's exhibition at the 2019 AHR Expo (International Air-Conditioning, Heating, and Refrigerating Exposition), January 14 to January 16 in Atlanta, Georgia. ([Register here.](#))

“With more than 60,000 attendees and 2,100 exhibitors, the AHR Expo provides a great opportunity to get our best-in-class products in front of OEMs, contractors, engineers, manufacturers, facility operators and other industry personnel looking to discover the latest HVACR-related products,” said Adam Chrisman, SunEarth President.

The hot water experts will be at the SunEarth booth in Atlanta, Georgia, January 14-16 for the 2019 [AHR EXPO](#) and be among the first to see our **NEW expanded line of Solar Stations** — an innovative line of pre-engineered assemblies of quality components in neat, compact enclosures, that simplify your solar needs.

Convert your Electric Water Heater into a Solar Thermal Heater. The Solar Station HX converts any existing water heating system into a solar water heating system. And it's not the only Solar Station being brought to you by SunEarth, offering a new line of Solar Stations for 2019 with features such as efficiency, reduced labor and engineering costs, decreased installation time, and easy maintenance, you'll want to know more about these Simple Solar Solutions and how they fit your project needs.

Join SunEarth in the NEW PRODUCT & TECHNOLOGY THEATER C, Monday, January 16, 2019 at 4:55 pm for Simplifying Solar Thermal Design: Solar Stations for Every Project Size.

Intrigued? Want to know more? Add SunEarth to your agenda and meet us in the New Product & Technology Theater on Monday, January 14, 2019.

[Register for Your FREE Expo Pass](#) and be our guest at the world's largest conference and expo dedicated to HVACR. Visit us at [Booth C5643](#) and discover first-hand why green home builders and property owners are incorporating SunEarth products into their housing projects.

ABOUT SUNEARTH

Since 1978, SunEarth has designed and built industry-leading solar hot water collectors, components and packaged systems. Every SunEarth product is constructed to exacting standards with the world's harshest climates and environmental conditions in mind. Our commitment to performance, durability and innovation is unparalleled – SunEarth is a global leader in renewable energy technology, offering more ICC-SRCC certified system options than anyone else in the world.

[Contact Us](#) to schedule an on-site appointment, discuss your project needs, or to simply learn more about transforming your home or business with SunEarth off-grid energy storage and power solutions.

Based in Southern California, SunEarth is the obvious choice for all your Solar Water Heating Solutions. If you are interested in receiving more information, have questions about our products, or would like to
