**VIEGA INTRODUCES MEGAPRESS® STAINLESS XL® FITTINGS**

*New offerings extend the range of MegaPress Stainless offerings up to 4" pipe*

BROOMFIELD, Colo. – Jan. 9, 2019 – Viega® MegaPress® technology is now available for stainless steel pipe up to 4". Three new fitting sizes will be featured at the Viega booth (#B2229) at the AHR Expo, Jan. 14-16, in Atlanta.

Viega, the leader in press fitting technology, is introducing MegaPress® Stainless XL® fittings for 2½", 3" and 4" pipe. The new fittings join the current MegaPress Stainless offerings of ½", ¾", 1", 1½" and 2" sizes to create a comprehensive lineup for a broad variety of applications, including maintenance and repair.

Designed for Iron Pipe Size (IPS) stainless steel, the new line of MegaPress Stainless XL fittings makes secure connections in seconds, which helps keep a project on time or ahead of schedule. MegaPress fittings reduce installation time by up to 90 percent compared to traditional pipe joining methods.

Combining productivity with peace of mind, MegaPress Stainless XL fittings are equipped with patented Viega Smart Connect® technology, which allows installers to easily identify unpressed connections during pressure testing. And MegaPress Stainless XL fittings offer the same proven quality and durability as all Viega products, bringing complete confidence to every job.

“Since Viega introduced MegaPress Stainless fittings in 2017, customers have been asking for them in larger sizes,” said Dominic Küng, Viega Product Manager for Metals. “The new XL fittings will allow customers to experience the same time savings and quality they expect from MegaPress fittings on an even greater number and variety of jobs.”

MegaPress Stainless XL fittings are available in 304 and 316 stainless steel and are approved for use with Schedule 10 to Schedule 40 pipe.

In addition to its stainless steel lineup, Viega also offers MegaPress fittings for carbon steel pipe up to 4" and copper nickel alloy pipe up to 2".

For more information on the new line of MegaPress Stainless XL fittings, visit [www.viega.us/mpstainless](http://www.viega.us/mpstainless).

About Viega: The Viega Group, with a tradition of innovation for 120 years, has more than 4,000 employees worldwide and is among the leading manufacturers of pipe fitting installation technology. In metal press systems for industrial, commercial and residential projects, the company is the global market leader. In the U.S., Viega LLC employs nearly 500 people and offers more than 3,000 products. These include Viega ProPress® for copper and stainless, Viega MegaPress® for black iron pipe and Viega PEX Press systems in Zero Lead™ bronze and high-performance polymer.
