Daikin Unveils New Products, Advocates for Climate Action at AHR Expo

WHAT: Daikin will be exhibiting several new technologies at the tradeshow, including the Rebel Applied™ packaged rooftop system, Magnitude® magnetic bearing centrifugal chiller and Aptitude™ oiled bearing centrifugal chiller, Daikin Fit system, VRV IV X heat recovery system and VRV LIFE system. Daikin specialists will also lead educational sessions, and highlight efforts to move the HVACR industry toward a more efficient, sustainable future.

WHERE & WHEN: Daikin Applied (Industrial/Commercial), Daikin North America (Residential/Light Commercial) and Daikin America (Chemicals)
West Hall – Booth 3301
All exhibition days and hours

State-of-the-Art Refrigeration Technologies with Lower Environmental Impact
Education Session – Room W311D
Monday, Feb. 3
11:00 a.m. - 12:30 p.m. EST

Seminar includes Ivan Rydkin, lead refrigerants engineer at Daikin Chemicals.

Rise Above with the Next Generation of Rooftop Technology
New Product and Technology Presentation – Theater A
Monday, Feb. 3
1:45 p.m. - 2:05 p.m. EST

Demonstration led by Matt Dodds, applied rooftop and self-contained systems product manager for Daikin Applied.

Emerson/Daikin Applied Press Conference
Daikin Booth (West Hall – Booth 3301)
Tuesday, Feb. 4
8:00 a.m. - 8:30 a.m. EST

Product experts from Emerson and Daikin Applied will announce Emerson’s next-generation Copeland™ ZPKZ scroll compressors and its use in Daikin Applied’s new Rebel Applied packaged rooftop system.

R-32: The Refrigerant for the Future Press Conference
Press Room W224EFG
Tuesday, Feb. 4
10:00 a.m. - 11:00 a.m. EST
Announcement and Q&A session focusing on the company’s move to R-32 and other low-GWP refrigerants, led by Philip Johnston, general manager at Daikin Applied.

CONTACTS: For more information, or to schedule time to talk to one of the principals above or other Daikin experts, please reach out to:
