FOR IMMEDIATE RELEASE:

SWEP expands its successful D650 True Dual heat exchanger range

LANDSKRONA, Sweden, January 1, 2020 – SWEP, part of Dover (NYSE: DOV), is introducing an all-new evaporator to their True Dual heat exchanger range, which targets chillers and heat pump applications with a higher temperature approach. The DV650 evaporator has been added to the D650 True Dual heat exchanger range and can be used with the majority of current high-pressure refrigerants.

The DV650 is one of the biggest brazed plate heat exchangers within the True Dual range. Brazed plate heat exchangers offer an efficient way to transfer heat and are useful components within air-conditioning, refrigeration and heating systems. The DV650 offers benefits such as condensed use of space, improved thermal efficiency and reduced maintenance. The True Dual range is highly versatile and offers full performance at both full and partial load, thanks to its clever design and cooling circuit technology.

SWEP’s D650 True Dual heat exchanger range includes the DFX650 evaporator and the DB650 condenser. The range can be utilized at various levels of system efficiency with high to low-temperature approaches and covering capacities from 250 kW to 700 kW. With the added DV650, application reach becomes even larger.

To learn more about the SWEP True Dual heat exchanger range, visit www.swep.net.

Please visit SWEP at Booth # 5743 during the AHR Orlando Expo being held Feb. 3rd-5th at the Orange County Convention Center to check out our full range of brazed plate heat exchangers (BPHEs) for HVAC, Refrigeration, Industrial, and District Energy applications.
About SWEP – Challenge efficiency
At SWEP, we believe our future rests on giving more energy than we take – from our planet and our people. That’s why we pour our energy into leading the conversion to sustainable energy usage in heat transfer. Over three decades, the SWEP brand has become synonymous with challenging efficiency.

SWEP is a world-leading supplier of brazed plate heat exchangers for HVAC and industrial applications. With over 1,000 dedicated employees, carefully selected business partners, global presence with production, sales and heartfelt service, we bring a level of expertise and customer intimacy that’s redefining competitive edge for a more sustainable future. SWEP is part of Dover Corporation, a multi-billion-dollar, diversified manufacturer of a wide range of proprietary products and components for industrial and commercial use.
